

LeadFlow

Recruitment Operations Platform

Helping recruitment teams work faster through centralized lead management, structured workflows, and real-time visibility.

CUSTOM SOFTWARE PROPOSAL

Prepared exclusively for

Suryavanshi Finserv

Prepared By	Bedant Arya Padhy
Role	Product Designer & Software Developer
Date	July 2026
Version	1.0

Designed to help recruitment teams operate with clarity, accountability, and confidence.

Executive Summary

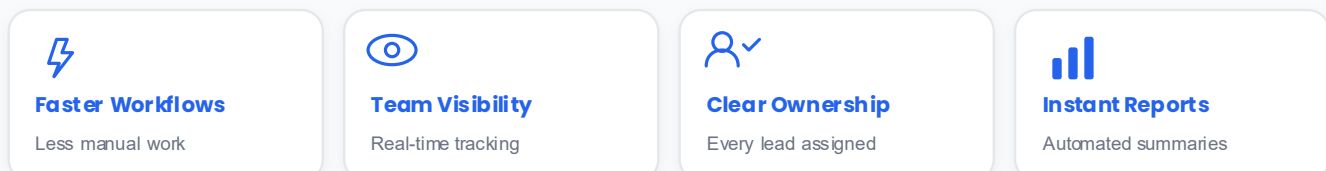

A complete overview of the recruitment challenge and the LeadFlow opportunity .

Recruitment teams often rely on spreadsheets, manual calling, and WhatsApp — creating delays, fragmented communication, and limited visibility.

LeadFlow centralizes these operations into one recruitment workspace .

Expected Business Impact

LeadFlow replaces manual recruitment coordination with one measurable, centralized platform.

Current Challenges

Understanding the recruitment workflow that needs to change .

Recruitment teams managing leads through manual tools face predictable challenges that reduce speed , visibility , and accountability .

Key Operational Challenges

Manual Excel Tracking

Leads tracked in spreadsheets with no sync or versioning .

WhatsApp Reporting

Updates shared through chat with no format or archive .

Duplicate Leads

Same leads contacted by multiple team members .

Poor Lead Ownership

No clear assignment record .
Leads left untracked .

No Central Dashboard

No single view of activity ,
progress , or pipeline status .

No Performance Tracking

No way to compare output ,
call volume , or conversions .

No Historical Reports

Past data scattered across
files with no searchable history .

Manual Distribution

Leads assigned through chat ,
creating delays and imbalance .

Limited Accountability

No audit trail connecting
actions to individuals .

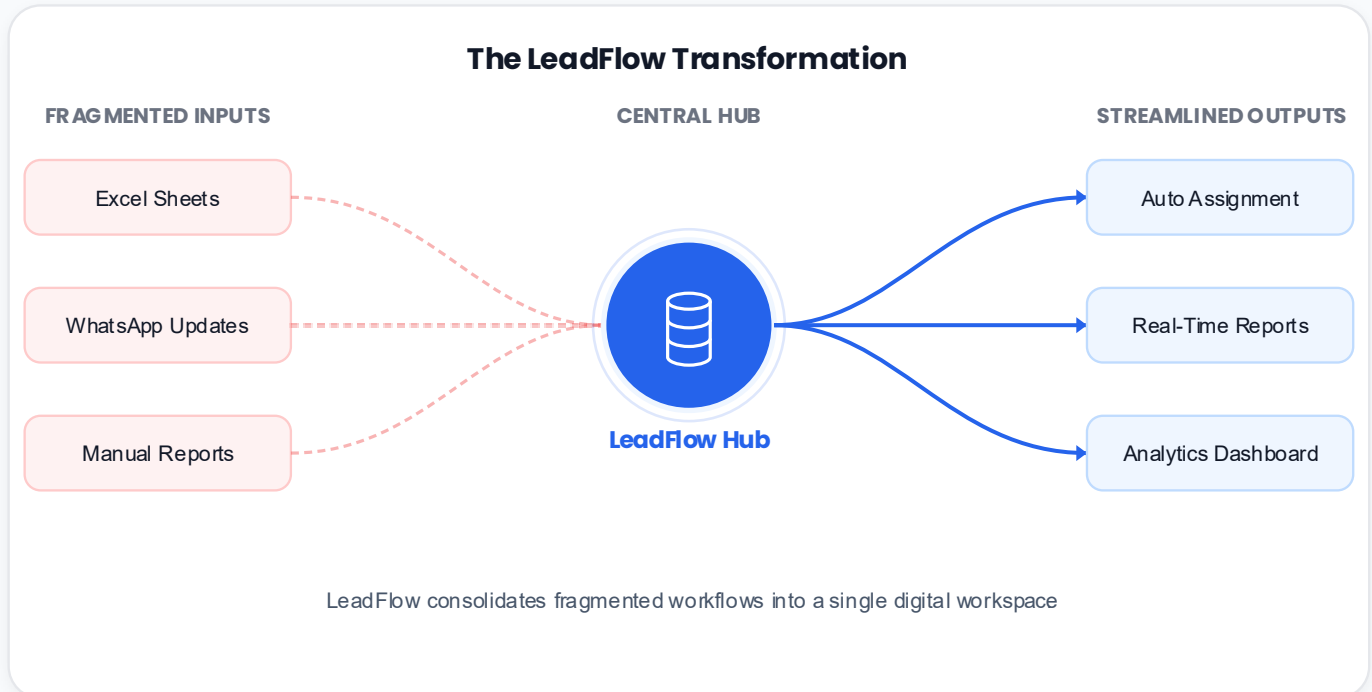

These operational gaps cost time every day .
Without structured tools, teams work harder but achieve less .

These challenges are the direct result of managing recruitment without a centralized platform.

Why Change?

Unlocking efficiency and visibility in recruitment operations .

Continuing with manual recruitment processes limits team growth and daily operational reach .
Centralizing operations creates a transparent environment where every lead is tracked .

Automated Efficiency

Eliminate manual data transfers . Interns receive assigned leads instantly and start calling without administrative delays .

Complete Visibility

Access real-time pipeline status . Managers track progress across all recruitment campaigns without requesting updates .

Structured Ownership

Assign every lead to a specific owner . Eliminate duplicate lead outreach and ensure clear team accountability .

Instant Analytics

Generate daily performance reports automatically
Monitor key metrics and identify bottlenecks without manual reporting .

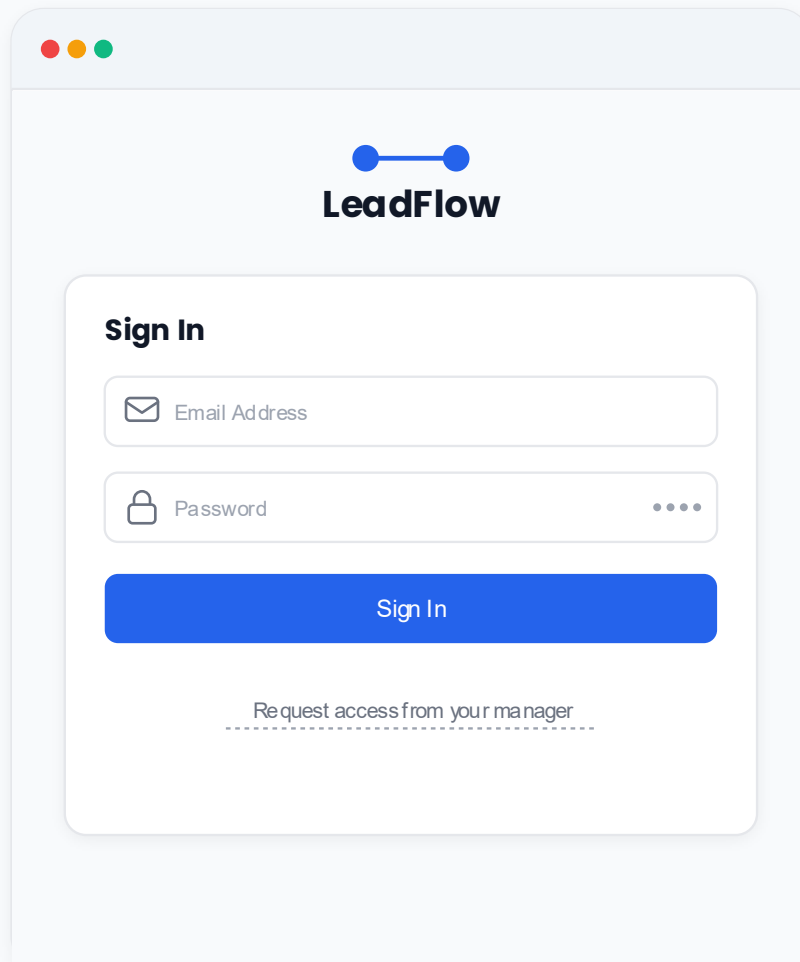

Centralizing recruitment operations is the key to reducing administrative overhead and accelerating hiring cycles.

Introducing LeadFlow

One platform to centralize your recruitment operations .

LeadFlow is a cloud-based Recruitment Operations Platform. It centralizes lead management, assignments, and reporting into one workspace .

Accessible from any modern browser with a fast, app-like experience.
No installation required.

Managers and interns securely access personalized workspaces from any modern device .

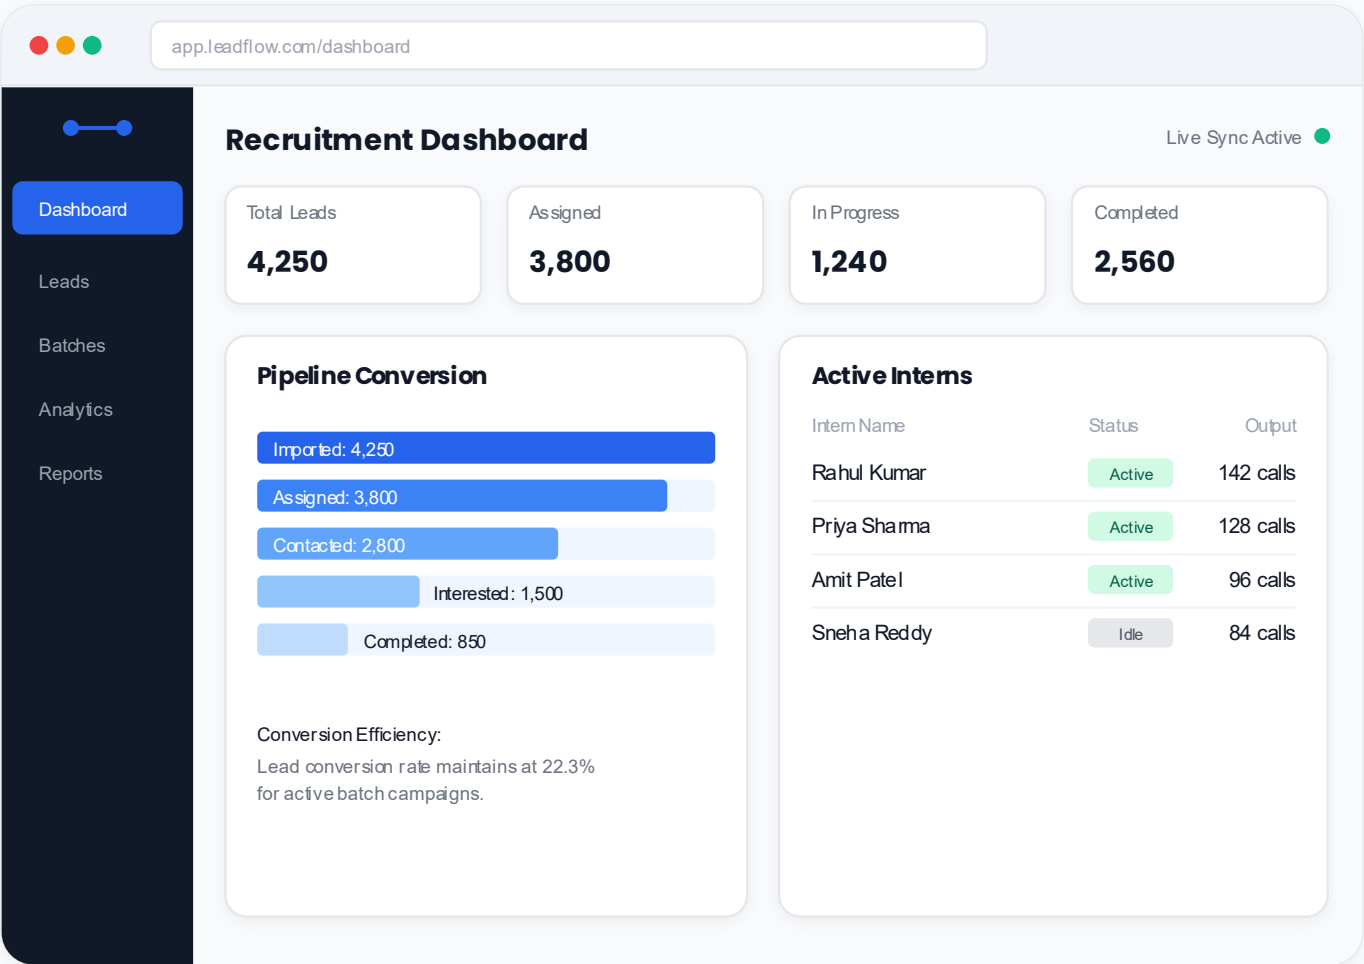

LeadFlow replaces fragmented, offline tools with a single cloud platform accessible from any modern device.

Manager Dashboard

Real-time visibility into daily recruitment operations .

LeadFlow centralizes recruitment oversight into a live, desktop dashboard. Managers monitor daily operations, track campaign performance, and review team output without manual intervention .

By replacing scattered updates with centralized metrics , decision-makers gain immediate clarity on lead progression .

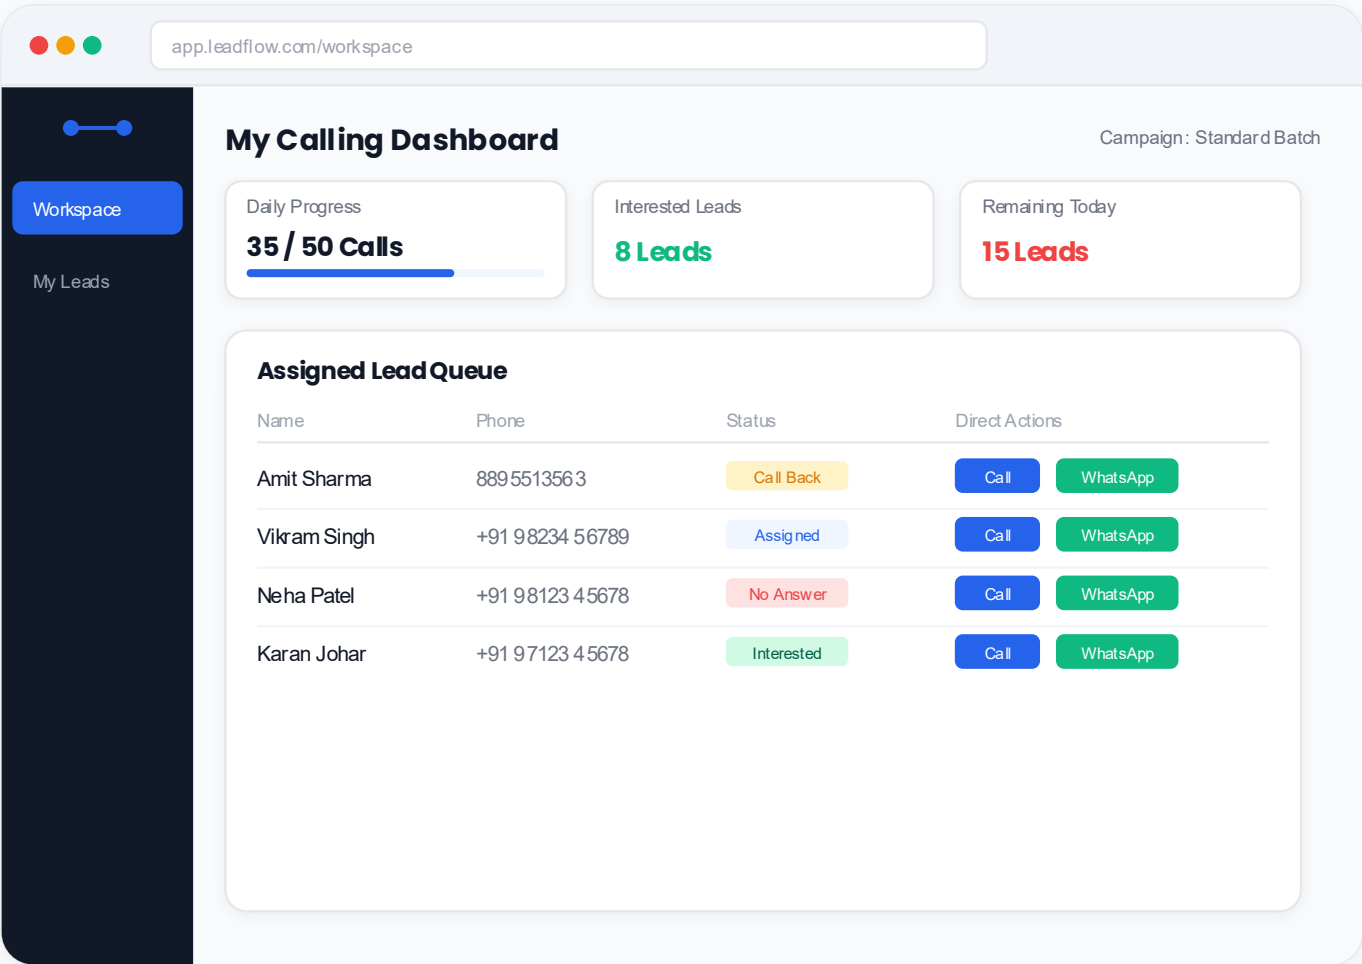

The manager dashboard provides a central view of all campaigns , metrics, and active interns.

The centralized manager dashboard replaces manual Excel tracking and WhatsApp coordination with real-time operational visibility.

Intern Dashboard

A focused workspace designed for recruitment productivity .

LeadFlow guides interns through their daily calling schedule . The interface prioritizes active assignments, displays real-time targets, and provides direct communication triggers for instant lead engagement .
By consolidating tasks onto a single screen , interns focus entirely on outreach instead of administrative data entry.

The intern dashboard provides a streamlined lead queue with integrated communication buttons .

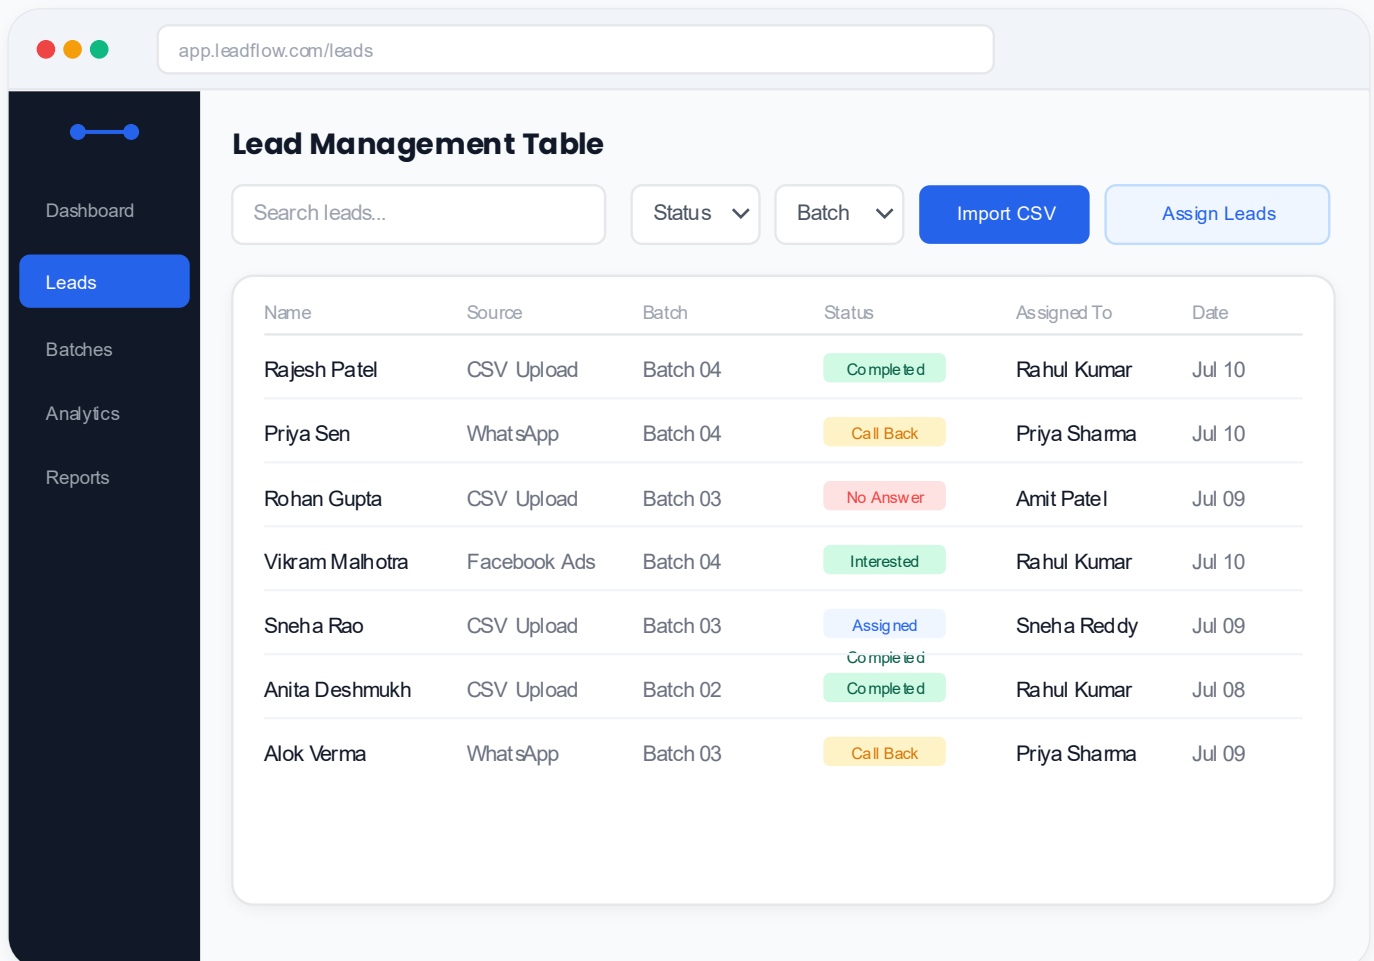

The focused intern dashboard provides immediate calling queues and direct communication tools, eliminating operational confusion.

Lead Management

Centralized control over lead distribution and database status .

LeadFlow replaces scattered spreadsheets with a secure , centralized lead database . Managers import lead batches, filter database records, and allocate assignments to interns from a unified interface .

With built-in duplicate detection and automated assignment rules , every lead is accounted for and assigned to a clear owner .

The screenshot shows a web application interface for lead management. At the top, there's a browser address bar with 'app.leadflow.com/leads'. Below it is a dark sidebar with navigation links: Dashboard, Leads (highlighted), Batches, Analytics, and Reports. The main content area is titled 'Lead Management Table'. It features a search bar 'Search leads...', two dropdown menus for 'Status' and 'Batch', and two buttons: 'Import CSV' and 'Assign Leads'. Below these controls is a table with the following data:

Name	Source	Batch	Status	Assigned To	Date
Rajesh Patel	CSV Upload	Batch 04	Completed	Rahul Kumar	Jul 10
Priya Sen	WhatsApp	Batch 04	Call Back	Priya Sharma	Jul 10
Rohan Gupta	CSV Upload	Batch 03	No Answer	Amit Patel	Jul 09
Vikram Malhotra	Facebook Ads	Batch 04	Interested	Rahul Kumar	Jul 10
Sneha Rao	CSV Upload	Batch 03	Assigned	Sneha Reddy	Jul 09
Anita Deshmukh	CSV Upload	Batch 02	Completed	Rahul Kumar	Jul 08
Alok Verma	WhatsApp	Batch 03	Call Back	Priya Sharma	Jul 09

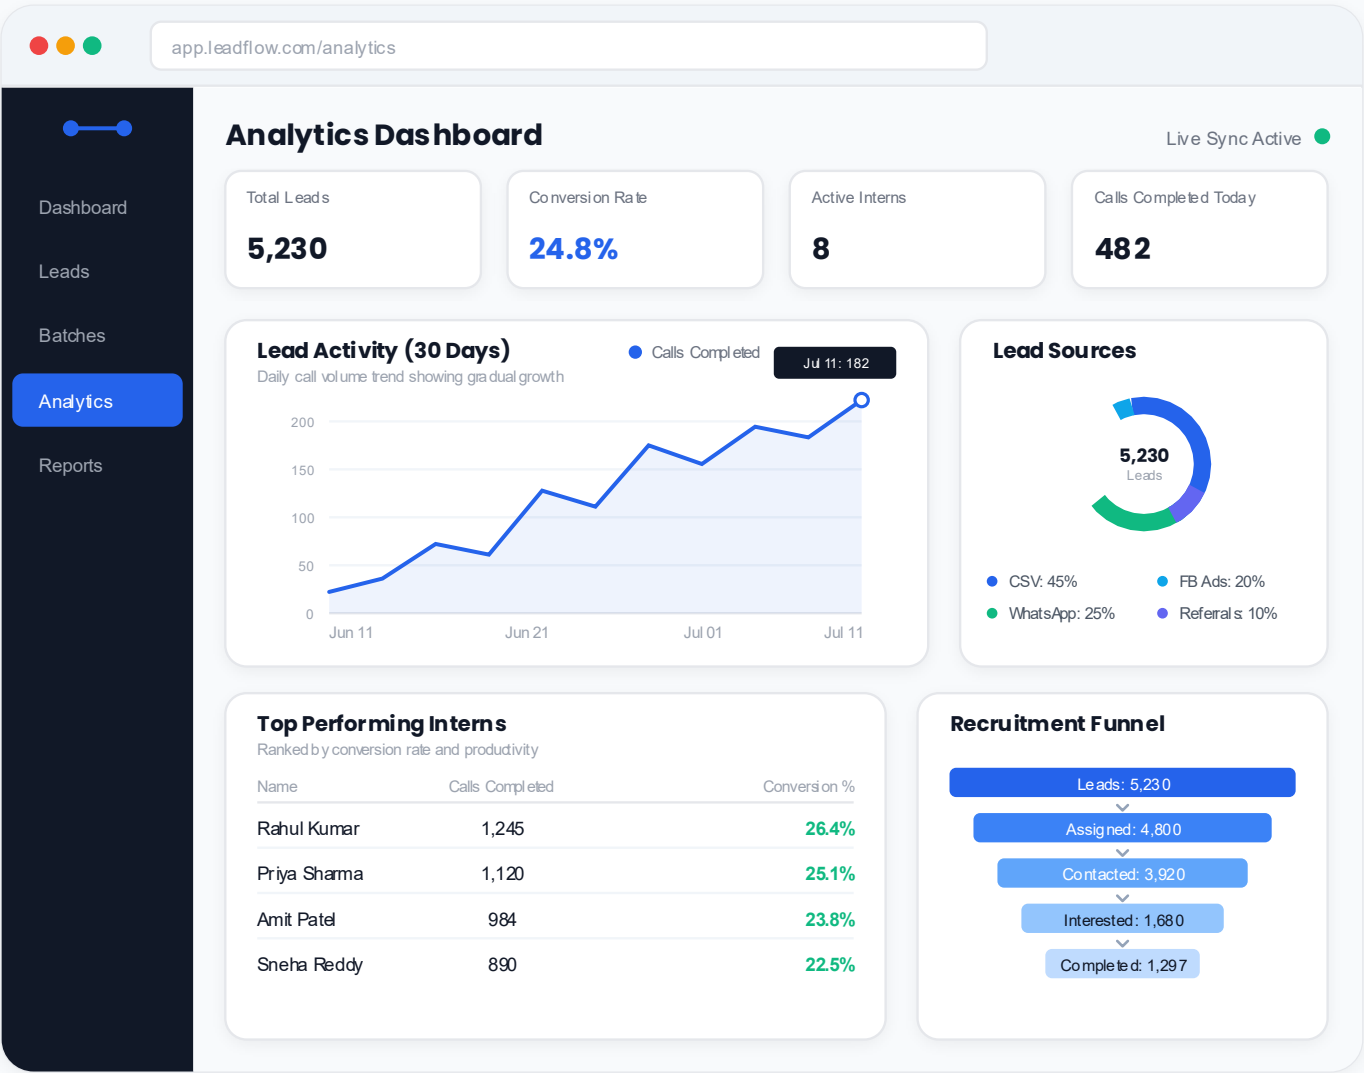

The centralized lead table replaces manual spreadsheets with a structured database .

Centralizing lead management in a unified database replaces manual distribution processes with absolute visibility and structural control.

Analytics Dashboard

Actionable business intelligence and automated performance reporting .

LeadFlow automatically converts recruitment activity into meaningful business insights . Managers no longer need to prepare reports manually or consolidate spreadsheets before reviewing performance .

The Analytics Dashboard provides realtime visibility into recruitment performance across lead\$interns, and lead sources.

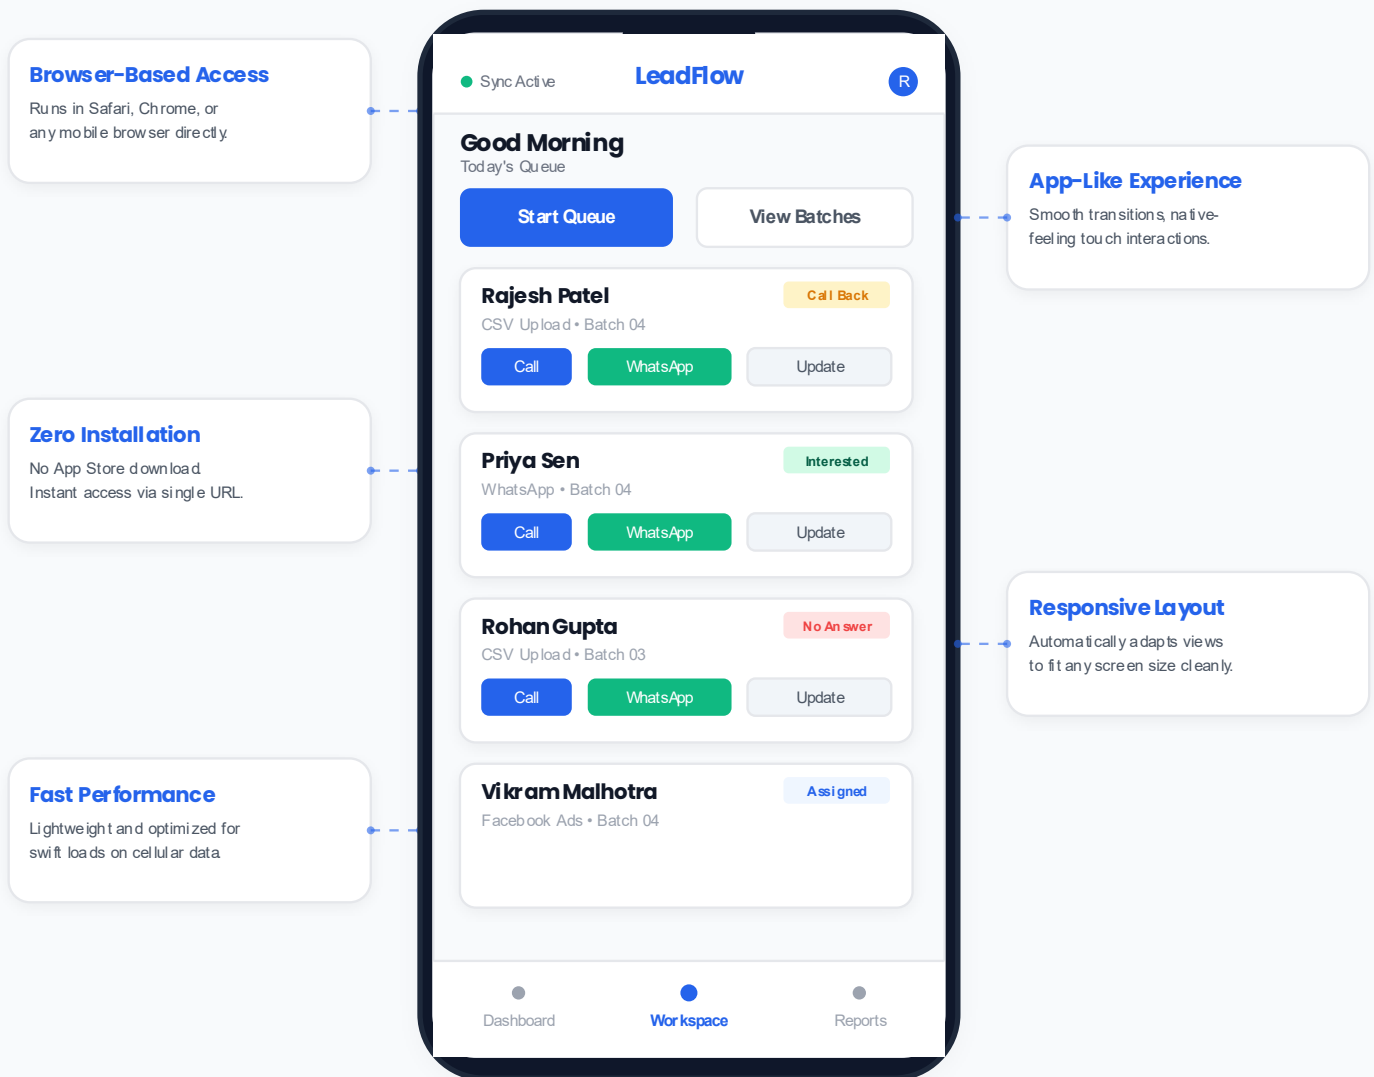

Real-time analytics help managers identify opportunities, monitor team performance, and make faster operational decisions.

Mobile PWA Experience

Fully functional recruitment workspace on any device.

LeadFlow works on any modern smartphone without requiring an app download.

Built using Progressive Web App technology, it delivers a fast, responsive experience while remaining accessible directly from the browser.

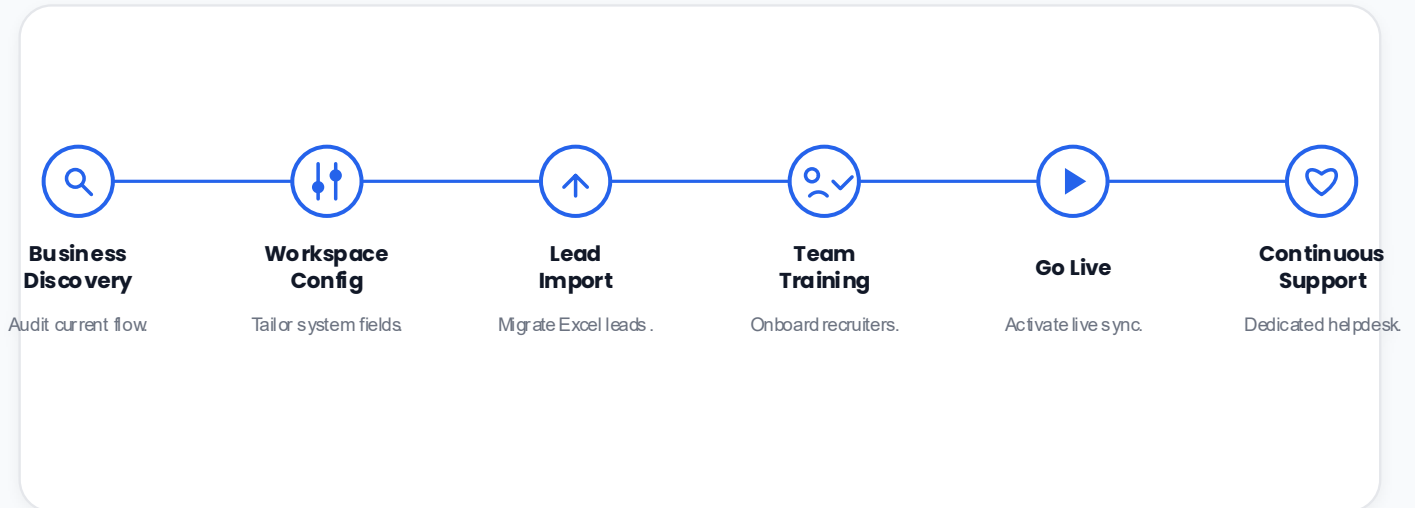

LeadFlow delivers the complete recruitment workspace through any modern mobile browser.

A responsive PWA architecture allows recruitment teams to stay productive from anywhere without the friction of app store installations.

Implementation Journey

A clear and structured path to recruitment productivity .

LeadFlow follows a structured implementation process designed to minimize disruption while enabling teams to become productive quickly .

Rapid Deployment

Configured within days
not months.

Secure Migration

Existing Excel sheets can
be imported safely.

Guided Adoption

Structured onboarding for
managers and interns.

A structured rollout ensures every stage of implementation is predictable, measurable, and supported .

A clear implementation plan reduces operational risk and helps teams begin using LeadFlow with confidence.

Pricing & Engagement

Transparent pricing tailored for Suryavanshi Finserv.

LeadFlow is offered through a simple fixed-price engagement with no hidden fees or user-based licensing.

What's Included

Full platform deliverables

Platform

- Manager Dashboard
- Intern calling workspace
- Real-time analytics panel

Setup

- Custom subdomain setup
- Supabase database config
- Lead spreadsheet migration

Training

- Intern calling onboarding
- Manager oversight training
- 2 Months included support

Investment

Simple, transparent costing

Software Development

₹20,000

Setup & Deployment

₹5,000

Total Initial Cost

₹25,000

2 Months Free Support

₹2,000 / month thereafter

Optional maintenance plan.
Includes bug fixes & updates.

Business Value

Measurable business impact

Reduced Manual Work

Saves hours daily by automating lead distribution and tracking.

Centralized Visibility

Real-time dashboards show lead stages and team output instantly.

Total Accountability

Clear ownership for every lead prevents duplicates and leaks.

Operational Efficiency

Interns focus entirely on calls instead of spreadsheet updates.

Predictable Budgeting

Fixed-cost rollout with zero per-user monthly licensing fees.

Payment Schedule & Milestones

50% Upfront Commitment

₹12,500 due upon project signing and kickoff

50% Upon UAT & Go-Live

₹12,500 due upon deployment and intern onboarding

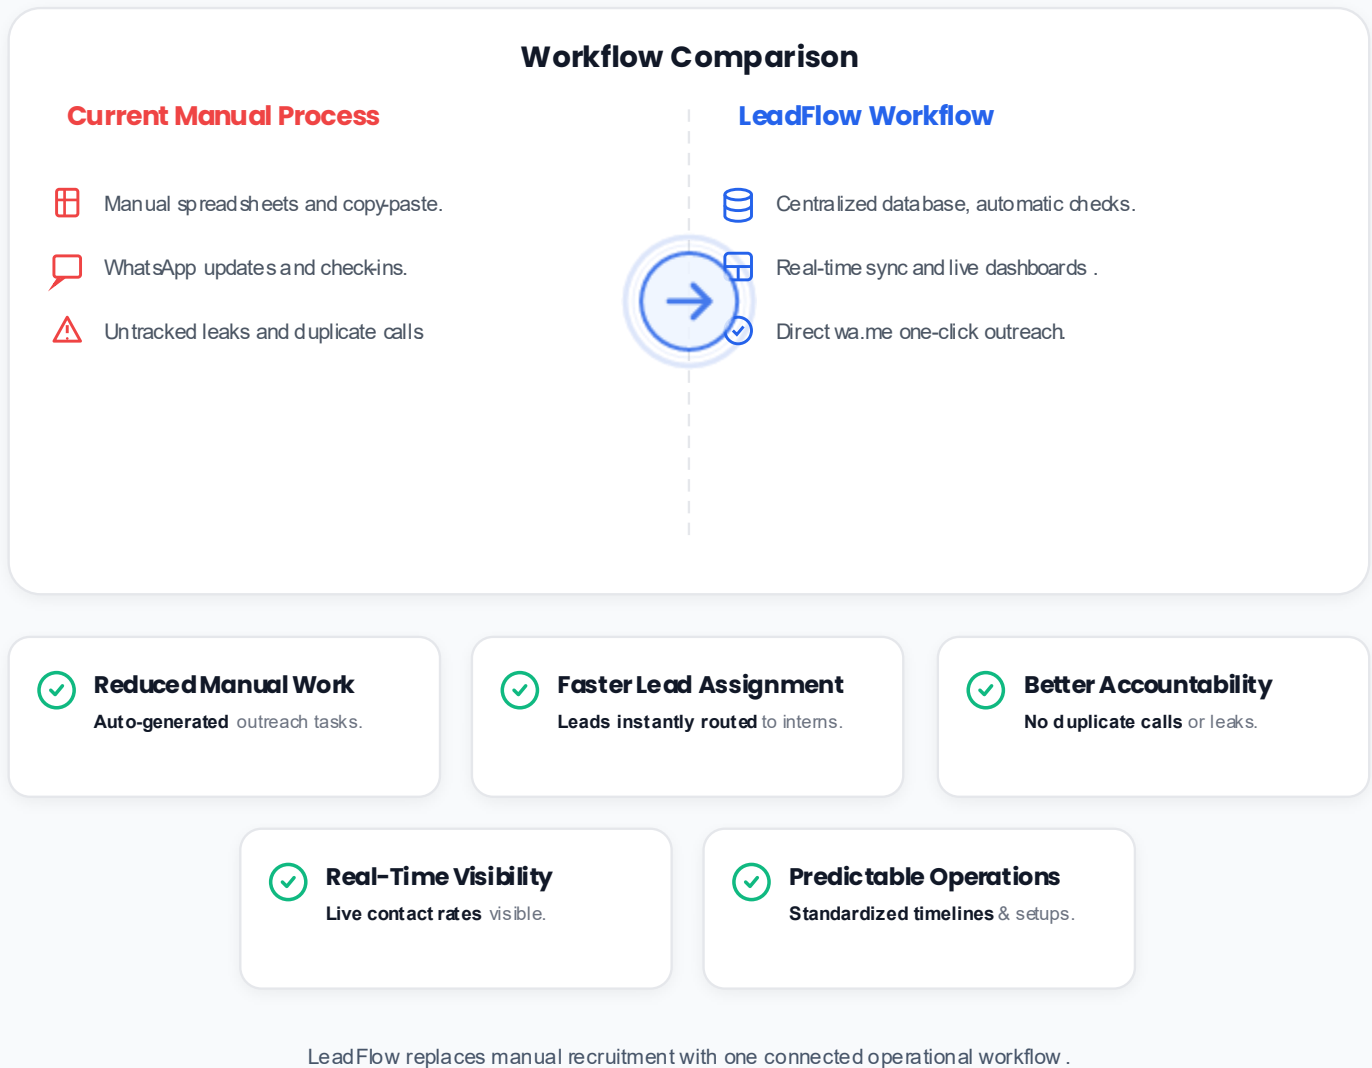

One transparent investment with no per-user licensing fees.

By eliminating per-seat licensing and deployment complexity, LeadFlow delivers immediate operational value and a rapid path to positive return on investment.

Return on Investment

Replacing manual friction with optimized operational value .

Compare your current recruitment process with the streamlined workflow enabled by LeadFlow .

Transitioning to a centralized workflow replaces operational friction with clear visibility, ensuring a direct path to positive business return.

Support & Long-Term Partnership

Supporting your team from launch through long-term growth.

LeadFlow is designed for long-term reliability and growth. We provide comprehensive onboarding support, ongoing maintenance, and clear pathways for future feature expansion.

Partnership Lifecycle

✓ Direct support during onboarding

Included Support

- 2 Months free support
- Secure data protection
- Minor UI enhancements

Future Enhancements

- WhatsApp Business API
- Scheduled email reports
- Recruiter scorecards

Dedicated Help

- Single onboarding contact
- Dedicated tech support
- Standard SLA response

Structured support keeps your platform reliable as your business grows.

A structured partnership ensures your platform remains reliable today while scaling to support future business milestones

Why LeadFlow

The logical next step for your recruitment operations .

LeadFlow combines modern recruitment workflows with simple implementation , transparent pricing , and ongoing support to create a dependable long -term solution.

Purpose-Built FOR RECRUITMENT OPERATIONS

Replaces generic tools with workflows optimized specifically for intern calling, lead allocation, and live manager oversight

Simple Rollout NO TECHNICAL OVERHEAD

Our structured 6-stage roadmap takes you from database config and lead data migration to live recruiter calling in weeks.

Transparent Price ZERO PER-USER FEES

Predictable fixed implementation pricing with no monthly per-user license fees. Scale your calling team without expanding licensing costs

Partner Ecosystem BUILT FOR FUTURE GROWTH

Includes 2 months of post-launch support, regular maintenance, and a structured roadmap for WhatsApp API and automated updates.

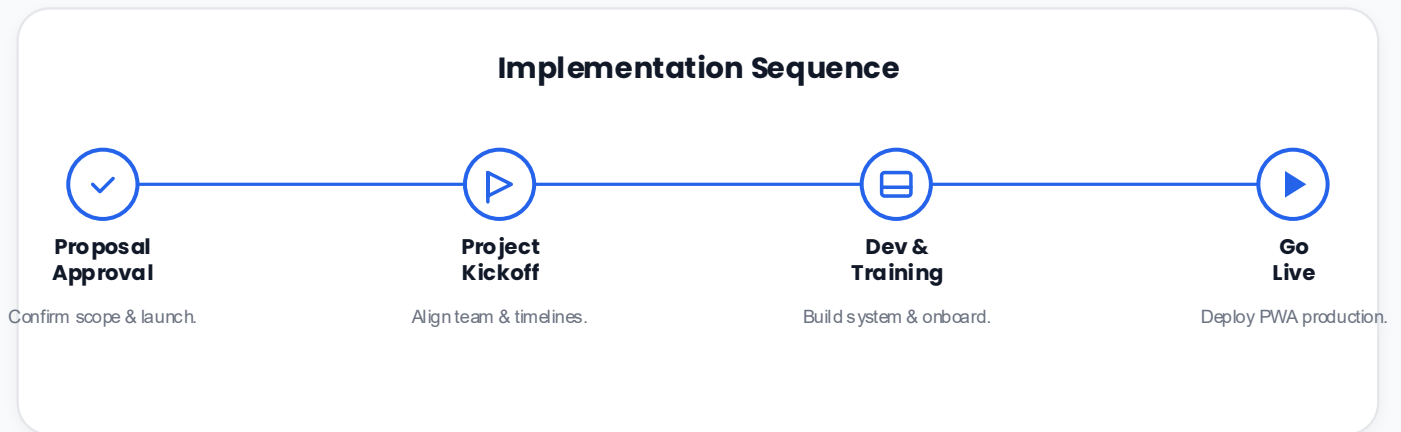

The dependable foundation for Suryavanshi Finserv 's recruitment operations

LeadFlow is more than software. It is a structured recruitment platform designed to simplify operations today while supporting future business growth.

Next Steps

A simple, structured path to successful platform launch .

LeadFlow follows a structured, fully supported implementation process to ensure minimal disruption to your daily operations while aligning fields and onboarding your team for launch success .

Communication

- Dedicated communication channel
- Direct engineer contact
- Weekly status reports

Project Timeline

- Structured implementation timeline
- Sprinted milestones
- Predictable timelines

Launch Support

- Full onboarding training
- Custom documentation
- Priority post-launch support

A predictable implementation framework ensures a seamless transition to LeadFlow .

A structured kickoff process eliminates deployment risk , ensuring your team has clear direction from day one.

Thank You

Let's build a modern, high-performance recruitment engine together.

Next Steps

Schedule a kickoff call to finalize:

- ✓ Detailed requirements mapping
- ✓ Custom metadata fields setup
- ✓ Onboarding & rollout timeline

Ready to launch implementation.

Client Approval

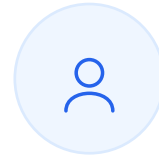

Subtle authorization to begin setup.
